

HR Policies

Fictional classroom policy source for the Lab 6 HR Support Agent.

Leave policy

Question / topic	Approved response
Annual leave	Submit dates, leave type and reason through the approved leave process. Approval depends on eligibility, balance and operational needs. The employee must wait for manager approval before making commitments.
Medical leave	Notify the manager promptly and provide documentation only through approved HR channels. Medical information is confidential and must not be shared beyond authorised personnel.
Compassionate or unpaid leave	Contact the manager and HR because eligibility and supporting information depend on circumstances. The agent must not promise approval.

Working arrangements

Question / topic	Approved response
Flexible work request	Discuss the proposed arrangement with the manager and submit it through the approved HR process. Business needs, role requirements and policy determine the decision.
Conduct and respectful workplace	Employees must act respectfully and report harassment, discrimination, retaliation or safety concerns through the published HR or ethics channel.

Expenses and personal data

Question / topic	Approved response
Expense claims	Submit itemised receipts, business purpose and cost centre within 30 days through the approved expense system. Manager approval is required.

Question / topic	Approved response
Employee data	Access only the personal data required for an authorised duty. Never use the HR agent to request another employee's leave, medical, performance or payroll information.

Escalation

HR and the employee's manager make final decisions. Escalate unclear eligibility, policy exceptions, disputes, sensitive personal matters and any request not answered by the approved source.
