|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| Business purpose    | Every claim must identify a clear work-related purpose. Personal entertainment and personal travel are not reimbursable.                          |
| Receipt             | An itemised receipt is required when the total claim amount is above SGD 50. Missing receipts require human review and may require a declaration. |
| Submission deadline | Claims should be submitted within 30 calendar days of the expense. Older claims require human review.                                             |

## Human decision boundary

The Expense Claim Agent and its flows provide policy guidance and routing recommendations only. They must not promise reimbursement, create evidence, override a limit, or treat an AI recommendation as the final approval. The authorised manager or expense team makes the final decision.
